

AMENDMENTS TO THE CLAIMS

This listing of claims replaces all prior versions, and listings, of claims in the application:

1. (previously presented) A cosmetic composition comprising a composition prepared from a whole *Coffea spec.* (coffee) cherry, wherein the whole *Coffea spec.* (coffee) cherry is a dried *Coffea spec.* (coffee) cherry that is primarily red or almost ripe, and that has a mycotoxin level of less than 20 ppb (part-per-billion) for total aflatoxins, less than 10 ppb for total ochratoxins, and less than 5 ppm for total fumonisins.
2. (canceled)
3. (currently amended) The cosmetic composition of claim 1 wherein the *Coffea spec.* (coffee) cherry is a quick-dried ~~such that~~ *Coffea spec.* (coffee) cherry having a mycotoxin level of ~~the *Coffea spec.* (coffee) cherry is~~ less than 20 ppb (part-per-billion) for total aflatoxins, less than 10 ppb for total ochratoxins, and less than 5 ppm for total fumonisins.
4. (previously presented) The cosmetic composition of claim 1 wherein the composition prepared from whole *Coffea spec.* (coffee) cherry is a preparation from a quick-dried *Coffea spec.* (coffee) cherry.
5. (currently amended) The cosmetic composition of claim 4 wherein the *Coffea spec.* (coffee) cherry is quick-dried under a protocol that limits a mycotoxin level of the *Coffea spec.* (coffee) cherry ~~[[is]]~~ to less than 20 ppb (part-per-billion) for total aflatoxins, to less than 10 ppb for total ochratoxins, and to less than 5 ppm for total fumonisins.
6. (previously presented) The cosmetic composition of claim 1 wherein the composition prepared from the whole *Coffea spec.* (coffee) cherry comprises at least one of an aqueous extract and an alcoholic extract.
7. (currently amended) The cosmetic composition of claim 1 wherein the composition prepared from whole *Coffea spec.* (coffee) cherry comprises at least one of an aqueous extract and an alcoholic extract, wherein the extract is prepared ~~further comprising as an~~

- ~~additional ingredient an extract prepared~~ from at least two of a bean of the *Coffea spec.* (coffee) cherry, a pulp of the *Coffea spec.* (coffee) cherry, a mucilage of the *Coffea spec.* (coffee) cherry, and a hull of the *Coffea spec.* (coffee) cherry.
8. (currently amended) The cosmetic composition of claim 1 wherein the composition prepared from whole *Coffea spec.* (coffee) coffee cherry is an extract of the *Coffea spec.* (coffee) coffee cherry and comprises at least two classes of compounds selected from the group consisting of coffee acids, coffee polyphenols, essential monosaccharides, coffee mucilage polysaccharides, and trigonelline, and wherein the at least two classes of compounds are present in the extract in an amount of at least 1 wt% of the extract.
 9. (previously presented) The cosmetic composition of claim 8 wherein the at least two classes of compounds are present in the composition prepared from whole *Coffea spec.* (coffee) coffee cherry in an amount of at least 5 wt% of the cosmetic composition.
 10. (previously presented) The cosmetic composition of claim 8 wherein the coffee acids include a compound selected from the group consisting of chlorogenic acid, ferulic acid, and caffeic acid.
 11. (previously presented) The cosmetic composition of claim 8 wherein the essential monosaccharides include a compound selected from the group consisting of arabinose, fucose, mannose, xylose, and galactose.
 12. (original) The cosmetic composition of claim 1 wherein the composition is formulated as one of a shampoo, a lotion, a cream, a balm, and an ointment.
 13. (previously presented) The cosmetic composition of claim 1 further comprising an information associated with the composition that the composition comprises the composition prepared from whole *Coffea spec.* (coffee) cherry.
 14. (previously presented) The cosmetic composition of claim 1 further comprising an information associated with the composition that the composition has an effect selected from the group consisting of an antioxidant effect, an anti-inflammatory effect, a UV (ultraviolet)-protective effect, an antimutagenic effect, a chemoprotective effect, a scar

reducing effect, a skin-lightening effect, a moisturizing effect, a wrinkle reduction effect, and an antibacterial effect.

15. (previously presented) A method of marketing a cosmetic composition comprising a step of providing the cosmetic composition and a further step of providing an information that the composition comprises a composition prepared from a whole *Coffea spec.* (coffee) cherry, wherein the whole *Coffea spec.* (coffee) cherry is a primarily red or almost ripe dried *Coffea spec.* (coffee) cherry that has a mycotoxin level of less than 20 ppb (part-per-billion) for total aflatoxins, less than 10 ppb for total ochratoxins, and less than 5 ppm for total fumonisins.
16. (previously presented) The method of claim 15 wherein the composition prepared from whole *Coffea spec.* (coffee) cherry comprises an extract of the *Coffea spec.* (coffee) cherry.
17. (original) The method of claim 15 wherein the information is associated with the cosmetic composition.
18. (previously presented) The method of claim 17 wherein the information is printed on at least one of a container containing the cosmetic composition and a package containing the container.
19. (canceled)
20. (previously presented) The method of claim 15 wherein the composition prepared from whole *Coffea spec.* (coffee) cherry is a preparation from a quick-dried *Coffea spec.* (coffee) cherry.
